<SKILLS />

Frontend: HTML, CSS/SCSS, JAVASCRIPT, REACT, Next JS, BOOTSTRAP

BACKEND: NODE JS, EXPRESS, REST APIs, MONGODB, POSTGRESQL, AWS S3

TOOLS: GIT, GITHUB, FIGMA, WEBPACK, WORDPRESS REST API

OTHER: Responsive Design, API Integration, Agile Workflow, SED Basics, Odoo, Clickup, Jira

SOFT SKILLS

- Creative
- Punctual
- Curious
- Team Player

LANGUAGES

- English - C1
- Dutch - B1
- French - A1

PROJECTS

- **AI-Powered Email Assistant:**
React, Open AI integration, Python
- **Real Estate Platform:**
Next.js, TypeScript, Node.js
- **Powerlifting Tracker:**
React, Node.js, MongoDB

PRINCE KYEI

FRONTEND DEVELOPER | JAVASCRIPT | REACT | NEXT JS

Creative and detail-driven Frontend Developer with strong experience building responsive, interactive web applications using React, JavaScript/TypeScript, and Next.js. Skilled in full-stack development with practical knowledge of Node.js, MongoDB, and PostgreSQL. Known for turning Figma designs into smooth, user-friendly interfaces and optimizing performance across the stack. Passionate about clean code, scalable systems, and collaborating in agile, cross-functional teams.

WORK EXPERIENCE

SOFTWARE DEVELOPER

PRO ADVISOR GROUP [REMOTE] - May 2024 - Present

- Promoted from **intern** to **freelance developer** based on strong performance and initiative.
- Built and maintained a responsive real estate platform using **Next.js** and **TypeScript**.
- Translated backend logic from **Python** to **Node.js**, improving API performance by 30%.
- Optimized frontend components and reduced key page load times by 25%.
- Collaborated with UI/UX designers and backend teams to ship scalable, user-centered features.
- Contributed to ongoing platform performance enhancements and new feature rollouts.

FULL STACK DEVELOPER

BELGIAN CALL CENTER [HYBRID] - September 2024 - March 2025

- Contributed to the Innovation team of a leading Belgian call center by spearheading the development of the complete **client-side** interface for an **AI-enhanced email support application**. This solution streamlined email handling by analyzing content, recommending agent actions, and proposing refined responses, demonstrably reducing processing time and improving response quality.
- My focus was on the **industrialization** and successful **deployment** of this application, which has since been adopted by four other clients. Collaborated with an AI expert and a system expert on the team.

FULL STACK DEVELOPER INTERNSHIP

Walter Clayton Dev [Brussels] - January - March 2024

- Enhanced AfitPilot blog's performance by optimizing the frontend and backend with the **WordPress REST API**, reducing load time by 40%, which significantly enhanced the user experience and retention.
- Developed a Powerlifting feature that allows users to track workouts, contributing to a 15% increase in user retention, leveraged **MongoDB** for personalized data storage and retrieval to create a customized user experience.

JUNIOR WEB DEVELOPER

BeCode [Brussels] - May 2023 - November 2023

- Led frontend development for **Beqanda Quiz App** using **React** and **Tailwind CSS**, achieving a 30% improvement in user engagement by enhancing interactivity and responsiveness.
- Collaborated with backend teams to integrate real-time data synchronization, reducing response time by 25%, which boosted the app's performance and user satisfaction.

EDUCATION

JUNIOR TRAINING PROGRAM

BeCode [Brussels] - May 2023 - November 2023

- Completed an intensive training, used tech stack **like React, JavaScript, HTML/CSS**, and problem-solving, focusing on building scalable, responsive applications in a team-oriented, agile environment.
- Collaborated with cross-functional teams to integrate backend services, gaining hands-on experience in **full-stack development** practices and preparing for seamless transition into professional projects.

WEB DESIGN

CVO Brussels, [Anderlecht] - September 2020 - June 2021

Completed a one-year training program in graphic design and web design, using tools like **Adobe XD, Photoshop, JavaScript, HTML, and CSS** to build and style web projects.

Achievements:

- Built a responsive hotel website, **Bed, n Blues**, optimized for mobile and desktop devices, achieving a 95% usability score in a user testing exercise.
- Explored **UI/UX design principles** to maximize accessibility and aesthetics, resulting in a project that met the highest grading standards.
- Created animations and interactive elements, elevating user engagement and visual appeal, ultimately receiving top project recognition in the course.
