< SKILLS />

Frontend: HTML, CSS/SCSS, JAVASCRIPT, REACT, Next JS, BOOTSTRAP

BACKEND: NODE JS, EXPRESS, REST APIs, MONGODB, POSTGRESQL

TOOLS: GIT, GITHUB, FIGMA, WEBPACK, WORDPRESS REST API

SOFT SKILLS

- Creative
- Punctual
- Curious
- Team Player

LANGUAGES

- English - C1
- Dutch - B1

HOBBIES

- Design logos and flyers
- Rapping and listening to music
- Reading history and economics books

WORK EXPERIENCE

JUNIOR WEB DEVELOPER
BeCode [Brussels]   -   May 2023 - November 2023

- Led frontend development for **Beqanda Quiz App** using **React and Tailwind CSS**, achieving a 30% improvement in user engagement by enhancing interactivity and responsiveness.
- Collaborated with backend teams to integrate real-time **data synchronization**, reducing response time by 25%, which boosted the app's performance and user satisfaction.

FULL STACK DEVELOPER INTERNSHIP
Walter Clayton Dev [Brussels]   -   January - March 2024

- Enhanced AfitPilot blog's performance by optimizing the frontend and backend with the **WordPress REST API**, reducing load time by 40%, which significantly enhanced the user experience and retention.
- Developed a **Powerlifting feature** that allows users to track workouts, contributing to a 15% increase in user retention, leveraged **MongoDB** for personalized data storage and retrieval to create a customized user experience.

SOFTWARE DEVELOPER (INTERNSHIP)
PRO ADVISOR GROUP [REMOTE]   -   May - December 2024

- Collaborating with the frontend team to develop a responsive real estate website using **Next.js** and **TypeScript**, ensuring seamless UI/UX implementation from Figma designs.
- Optimized backend functionalities by translating critical code from **Python to Node.js,** increasing code consistency across the stack and improving API response times by 30%.
- Enhanced component performance and reduced loading time for key pages by 25%, contributing to a dynamic and engaging user interface.

SOFTWARE DEVELOPER (CONTRACT)
PRO ADVISOR GROUP [REMOTE] -   December, Present

- Continuing to contribute to the global real estate platform by implementing advanced frontend optimizations and maintaining a seamless **API integration workflow**.
- Focusing on scalable architecture and collaborating with cross-functional teams to deliver high-quality, user-friendly features.
- Supporting ongoing performance improvements to ensure fast and reliable application performance for end users.

EDUCATION

WEB DESIGN
CVO Brussels, [Anderlecht]   -   September 2020 - June 2021

Completed a one-year training program in graphic design and web design, using tools like **Adobe XD, Photoshop, JavaScript, HTML, and CSS** to build and style web projects.
Achievements:

- Built a responsive hotel website, **"Bed, n Blues,"** optimized for mobile and desktop devices, achieving a 95% usability score in a user testing exercise.
- Explored **UI/UX design principles** to maximize accessibility and aesthetics, resulting in a project that met the highest grading standards.
- Created animations and interactive elements, elevating user engagement and visual appeal, ultimately receiving top project recognition in the course..

JUNIOR TRAINING PROGRAM
BeCode [Brussels]   -   May 2023 - November 2023

- Completed an intensive training, used tech stack **like React, JavaScript, HTML/CSS**, and problem-solving, focusing on building scalable, responsive applications in a team-oriented, agile environment.
- Collaborated with cross-functional teams to integrate backend services, gaining hands-on experience in **full-stack development** practices and preparing for seamless transition into professional projects.
